RE: FCC ID: PGR2W1000W

Attention: Juan Martinez

I have a few comments on this Application.

1. There appears to be more than sufficient room on the device to place the statement required in 15.19 (the 2- condition statement). Please provide this statement on the device. Alternately please explain how the device fits the exceptions specifically listed in 15.19(a)(5).
2. On page 15 of the report you show limits for 15.407. This device however is a 15.247 device. Please show information related to the operating frequency of this device.
3. FYI - Please note that the plots provided are not clear. Plots should be easily readable.
4. Starting on page 44 of the report you use EN55022 limits. Please note that for the restricted bands below 1GHz you must use 15.209 limits. Several restricted band measurements below 1GHz appear in your data sheets. Please correct your report to show the proper limits.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
