RE: Antenna Gain for Products RG3800HGV-00, RG370HG-00

To whom it may concern:

This letter is to confirm and certify that the antenna design on the products RG3800HGV-00, RG370HG-00 has been shown to have a gain of 1dBi.

A handwritten signature in black ink, appearing to read "J. Muir". The signature is fluid and cursive, with a long horizontal stroke at the end.
