FCC ID: PGRPX031ANI

To whom it may concern:

The enclosed documents constitute a formal submittal and application for a Class II Permissive change for a RF4CE device operating in the 2.4GHz band pursuant to the following rules:

Subpart C of Part 15 of FCC Rules (CFR 47), Intentional Radiators

Please refer to the letter from Pace Americas detailing the differences between the modified device and the device originally certified.

Based on the changes, only an assessment of the radiated spurious emissions at the worse case channel (low) and conducted emissions per 15.207 was performed. The power of the new sample was confirmed to be consistent with the original filing.

NTS, as duly authorized agent prepared this submittal. A copy of the letter of our appointment as agent is included with the application.

If there are any questions or if further information is needed, please contact National Technical Systems for assistance.

Sincerely,

Mark Hill
Staff Engineer
