

Federal Communication Commissions
7435 Oakland Mills Road
Columbia MD 21046

Attention: Mr. Steven Dayhoff

Subject: Applicant: CyberBank,
 FCC ID: PGVCB-0800
 Confirmation No: EA99938
 Application Date: 02/01/2001

Dear Steve:

Date:3/21/2001

Along with this cover letter, I am uploading the necessary files to support the request to change the status from Deferred to Technical Review.

The original device was tested as PDA with AMP cellular phone, which was filed to the Commission on 02/01/2001. Right after the submission, Cyberbank has come out the new device, which is PDA with AMP/CMDA dual mode Cellular phone.

In accordance to Mr. Frank Coperich's E-mail dated on 3/05/2001:

"This application has been assigned to Mr. Steven Dayhoff for review.

As a pending application, it is eligible for modification prior to Grant. However, only one version of this device may be approved under one FCC ID. To avoid unnecessary review of the currently pending application, you should submit a request for deferral - until the revised material is sent. When re-activated, the application will be reviewed in order of it's original receipt date.

Please contact Mrt. Dayhoff to coordinate this process."

The proposed FCC ID number: PGVCB-0800 will be assigned to PDA with AMP/CDMA dual mode Cellular phone only. There will be no FCC ID number to associate with PDA with AMP Cellular phone. If Cyberbank decides to sell PDA with AMP Cellular phone, new FCC application with new FCC ID number will be made to the Commissions.

Due to urgency of this application, Cyberbank has requested Mr. Scott Johnson from law firm of Gardner, Carton & Douglas to assist the review process. However, if there is any technical question you may have, please direct your questions to Compliance Certification Services.

Best Regards

Mike Kuo / Vice President
