

CB-7.2.1 – Technical Review RT Form

FCC ID: PH3DJ-NX40T

IC ID:

CT Project: P1550009

From: Shawn McMillen

Date: RTs 06-16-2015

1--On Page 5 of the SAR report the modulations tested is blank. Please address.

MSE 6/17/15: I filled in "CW" for modulation type, because although the radio transmitter was turned on by a switch during SAR testing, it only goes into modulation when someone is speaking by voice into the radio. The rest of the time the radio just transmits CW. I have upgraded the report revision to Rev 3.0 (from Rev 2.0).

2--Be advised that there are some documents in the main folder that may be part of the confidential documents. Also check the short and long term confidentiality requests to make sure certain documents are removed from the reports as not to violate the confidentiality requests.

DW: Completed.
