

American Telecommunications Certification Body Inc.
6731 Whittier Ave, McLean, VA 22101

September 25, 2002

RE: Alinco, Inc.

FCC ID: PH3DR-620T

After a review of the submitted information, I have a few comments on the above referenced Application.

- 1) Please provide a close up photograph of the RF sections located underneath the shields.
- 2) The information regarding frequencies of operation given in the application are not consistent. Please clarify what the actual frequencies are and correct the affected exhibits.

Operational Description	Users Manual	731 Form
87.5-108	76-107.995	87.5-107.995
108-173.995	118-135.995	108-135.995
108-173.995	136-173.995	136-173.995
335-480	335-479.995	335-479.995

- 3) The EUT is considered a composite device (PC Peripheral Device + scanning RX) and is subject to the applicable requirements of both. However, in the configuration specified in the test report the EUT has only been tested for the receiver portion of the device. For meeting the requirements of 15.107 & 15.109 as a PC peripheral the device should have also been tested with a minimum PC configuration as specified by ANSI C63.4 in order to meet the DoC requirements as a PC Peripheral Device. Please confirm that the EUT has been evaluated and tested in a properly configured configuration or alternatively provide a copy of the DoC report.
- 4) If the device has been approved under a DoC authorization, the device should include a compliance information sheet that meets the following requirements:

COMPLIANCE INFORMATION (47CFR 2.1077)

If a product is tested and authorized under a Declaration of Conformity, a compliance information statement (all information located together on one single page or as a separate sheet) shall be supplied with the product at the time of marketing or importation, containing the following information:

- (1) Identification of the product, i.e. name and model number.
- (2) A statement similar to that contained in Section 15.19(a)(3) that the product complies with Part 15 of the regulations.
- (3) The identification, by name, address and telephone number, of the responsible party. The responsible party is defined as either the manufacturer, or if the equipment is imported, the importer. The responsible party for a Declaration of Conformity must be located within the United States.

Note: All this information was found in the users manual, but should be contained on a single page in the manual.

Timothy R. Johnson
Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
