731 Confirmation No.: TC850737
Explanation for Dismissal

Gentlemen:

On behalf of **Axesstel Inc.**, we hereby request the dismissal of the above-mentioned application. This device has never been sold or marketed in the U.S.

This application was uploaded under the TCB program however, during the final review we noted that the application needed to be filed with the FCC directly as the SAR test procedure for the EUT has not yet been formalized. We contacted the FCC and they confirmed the application should be uploaded to the FCC. We were then instructed to issue the Grant of Authorization and upload a Dismissal Request to complete the dismissal of the application. In doing so, we would now like to follow the FCC advice and upload the application to the FCC directly.

Should you have any questions or comments concerning the above, please contact the undersigned.

Sincerely,

Randy Ortanez
President
