Federal Communications Commission
Equipment Authorization Branch
7435 Oakland Mills Road
Columbia, MD 21046

FCC ID: PH7MV140
731 Confirmation No.: TC850737
Date of Grant: March 8, 2007
Explanation for Dismissal

Gentlemen:

On behalf of **Axesstel Inc.**, we hereby request the dismissal of the above-mentioned application. This device has never been sold or marketed in the U.S.

After the Exhibits for the referenced application were uploaded, but prior to issuance of the grant, PCTEST determined that the application should be submitted to the FCC for approval, rather than through a TCB. However, because the Exhibits had been uploaded, the FCC instructed PCTEST to issue the grant and immediately request dismissal, so that it can be filed directly with the FCC. We have issued the grant, per the FCC's instructions, and now request dismissal.

Should you have any questions or comments concerning the above, please contact the undersigned.

Sincerely,

Randy Ortanez
President

Hello

In this instance, please:

upload a cover letter exhibit explaining the situation / requesting dismissal

complete the filing

Send easadmin@fcc.gov an e-mail when the above have been completed.

We will then issue the dismissal.

Thank you.

Subject: Regarding FCC ID: PH7MV140 (TC850737) - PENDING

Hello,

We uploaded an application for FCC ID: PH7MV140 (TC850737) on February 23, 2007. However, during the final review we noted that the application needed to be filed to the FCC directly. We contacted EASAdmin and we heard back from Tim Harrington (Feb. 26th), he mentioned that incomplete applications are automatically deleted from the system after some time, and that EASAdmin may have some additional advice.

We hereby request to have this TC850737 deleted from the pending applications so that we may follow the FCC advice and upload the application to the FCC directly. Please inform me how we can have this application removed from the system as soon as possible.

If you have any questions or comments, please do not hesitate to contact us. Thank you.

Best Regards,
Courtenay

In general, filings with SAR from USB-dongle transmitters installed directly in host-product can be processed by TCBs. FCC 3G SAR procedures must be applied, or if not applicable follow PBA procedures where appropriate.

In accordance with KDB pub. no. 447498 and Oct06 FCC-TCB notes, applications should be filed at FCC for case of SAR from USB-dongle transmitter attached via cable between displaced host and with device mounted stand-alone under phantom.

Incomplete filings are automatically deleted from system after some time period - EASAdmin may have other advice if needed.

Hello,

We are about to issue the FCC Grant of Authorization for this Cellular/ PCS CDMA USB Modem, but we decided to hold off and request permission/ guidance from the FCC.

Can this filing be submitted under the Permit But Ask Procedure? If TCB cannot approve this device, can we request guidance from the FCC as to the means to delete/ remove the uploaded documents.
