Overview

This application for the certification of a 13.56 MHz near-field communications transmitter, FCC ID: PHANTOM-VS015. The transmitter will be installed in VendScreen's Revolution vending machine payment terminal. The terminal is a retrofit device for expanding payment options in an existing vending machine. The Revolution unit is powered from a low-voltage DC power supply within the vending machine.

Confidentiality requested for allowed files. Request is properly addressed and referenced.

Recommendation

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.

Signature

A handwritten signature in blue ink that reads "Dave Tolman".
