Dear Application Examiner:

VendScreen, Inc. is submitting this application for the certification of the 13.56 MHz near-field communications transmitter, FCC ID: PHANTOM-VS015. The transmitter will be installed in VendScreen's Revolution vending machine payment terminal. The terminal is a retrofit device for expanding payment options in an existing vending machine. The Revolution unit is powered from the low-voltage DC power supply within the vending machine.

The radio has a single antenna connection, which is permanently connected to an antenna contained within the Revolution device. This configuration satisfies the requirements of 47 CFR 15.203.

The technical reports and exhibits demonstrate compliance with FCC rules 47 CFR 15.225 as a near-field communications transmitter.

Your efforts in reviewing this application are greatly appreciated.

Best regards,

VendScreen, Inc.
