Warning Statements and Locations

The following statements and warnings are located in the “Installing the Low Power Base Station” manual:

The Low Power Base Station must be professionally installed to ensure that all regulatory requirements are met. These include but are not limited to: local building and safety codes, National Electrical Code, and the FCC rules and regulations.

The NextNet Wireless Low Power Base Station is a fixed product that operates as a point-to-point wireless data link. As such, this product is only authorized to operate as manufactured by NextNet Wireless and cannot be modified to operate in any other manner. Installers must ensure that this product complies with the FCC rules. Modifications to this product would be in violation of the FCC rules detailed in 47CFR15.247(b)(3)(iii) which states: *Fixed, point-to-point operation, as used in paragraphs (b)(3)(i) and (b)(3)(ii) of this section, excludes the use of point-to-multipoint systems, omnidirectional applications, and multiple co-located intentional radiators transmitting the same information. The operator of the spread spectrum intentional radiator or, if the equipment is professionally installed, the installer is responsible for ensuring that the system is used exclusively for fixed, point-to-point operations.*

WARNING: This equipment has been tested and found to comply with the FCC guidelines as found in 47CFR1.1310 for Radio Frequency Radiation Exposure Limits as detailed below. A minimum of 36 centimeters or 14 inches of separation between the base station antenna and all persons must be maintained.

RE: Certification Application
FCC ID: PHX-BTS2400A
NextNet Wireless, Inc. model number: BTS-2400-AV

To Whom It May Concern:

Please be advised that the manufacturer will ensure that the above-referenced model will be manufactured in accordance with the FCC Rules and Regulations. All changes or modifications in place during the FCC testing of this product have been incorporated into the current bill of material or manufacturing processes.

Thank you for your attention to this matter.

Professional Installation Requirement

09/27/2004

NextNet Wireless, Inc.
9555 James Avenue South Suite 270
Bloomington, MN 55431

RE: Certification Application
FCC ID: PHX-BTS2400A
NextNet Wireless, Inc. model number: BTS-2400-AV

To Whom It May Concern:

Application of the device:

The NextNet Wireless BTS-2400-AV base station is a fixed product that operates as a point-to-point wireless data link.

Installation/Marketing requirements:

The NextNet Wireless BTS-2400-AV base station will only be sold to dealers that are responsible for the design, construction and operation of the wireless network. System setup requires the base station operating parameters to be configured by the system operator. The software necessary for system setup is not available to the general public.

Thank you for your attention to this matter.
