

Warning Statements and Locations

The following warning statement is located in the "Installing and using the Expedience Outdoor Subscriber Unit OSU" manual:

NOTICE: This equipment has been tested and found to comply with the Radio Frequency Radiation Exposure Limits detailed below. A minimum of 20 centimeter (8 inches) separation between the OSU and the operator and all other persons should be maintained.

The following information is located on the OSU product:

To comply with FCC radio frequency exposure rules, 47CFR1.1307 and 1.1310, a minimum separation of 20 cm (8 inches) is required between this device and all persons.
