RE: Certification Application
FCC ID: PHX-RBTS2500

Please be advised that the following information is a list of modifications that will be included in the production process for the above-referenced equipment.

The printed circuit board will be updated to include all design changes in effect at the time of FCC compliance testing. The schematics and bill of materials associated with this filing reflect the updated design changes.

Thank you for your attention to this matter.

Tim Blom
NextNet Wireless, Inc.

Warning Statements and Locations

The following warning statement is located in the “Configuring, Installing, and Using Carrier Infrastructure” manual:

WARNING: This equipment has been tested with a 19 dBi gain antenna and found to comply with the FCC guidelines for Radio Frequency Radiation Exposure Limits as detailed below. For a single base 5 watt transmitter connected to the antenna, a minimum of 2 meters or 6.5 feet of separation between the antenna and all persons must be maintained. The minimum separation increases when additional base transmitting signals are combined and applied to the same antenna. Four base 5 watt transmitters combined to use a single antenna need a minimum separation of 4 meters or 13 feet from all persons.
