

**Endonetics Incorporated
FCC ID#: PHZ-BRAVO100**

Photo 1

Exterior View of pH Probe from Endonetics.

Photo with U.S. Currency to provide size relationship.

Due to 1) the size of the probe, 2) the encapsulating material as defined by the FDA and 3) the positioning of the probe within the esophagus of the patient, NO FCC ID NUMBER is printed on the probe.

The FCC ID Number appears on the label of the sterile package the probe is shipped in.

Please see the “FCC ID Label File” for FCC ID Documentation.
