subject Ezurio Ltd, FCC ID: PI401B, Assessment NO.: AN07T7349, Notice#1

Dear Joe Hsieh,

The review of the application is complete. Please reply to the following items.

Q1: Class II Permissive Change Letter and user manual describe use of an external antenna. Test report page 23 states a fixed antenna on the PCB. Please revise the test report.

Q2: The user manual page 30-31 describes use of external antenna configurations that do not appear to have been tested. The test report appears to include test data for only one antenna. Please provide additional or revised information concerning antenna configuration.

Q3: Please provide an antenna exhibit with specifications for antenna(s) tested with this device. FCC requires that the highest gain of each antenna type (e.g. dipole, patch, yagi, etc.) be tested with the device.

Q4: The power shown for this application and in the test report is higher than the original application by approximately 1.6 dB. FCC does not allow increase to power by Class II Permissive Change. If increase in power is desired, then a new application with new FCCID must be submitted. For tolerance purposes, FCC accepts conducted measurement data within +/- 0.5 dB to be the same as the original, however the power listed on the grant may not change. Please provide additional explanation or revised documents.

Best regards,

Tim Dwyer
CCS Technical Reviewer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.

subject Re: Ezurio Ltd, FCC ID: PI401B, Assessment NO.: AN07T7349, Notice#1

Dear Tim,

Re-Q#1:
Attached please find the revise test report (P23).

Re-Q#2:
Attached please find the revise User Manual. The antenna configuration has been canceled this time (P30-31).

Re-Q#3:
Attached please find the antenna spec.

Re-Q#4:
The device has been adjusted by applicant to meet the power request of FCC.
Please check the revise test report.

Any questions please feel free to contact with me. Thanks.

Best regards,

Joe
