

7th October 2009

Federal Communications Commission

Subject : Request for Class II Permissive Change
FCC ID : PI4520B
Original grant date : 16/9/2009
Applicant : Ezurio Limited

To whom it may concern,

This is a request for a Class II Permissive Change for FCC ID: PI4520B, originally granted on 16/9/2009.

The modification points are as follows to allow use of external antennas:

1. Removal of ceramic patch antenna
2. Addition of U.FL connector

The original PCB design allowed for this modification to be made and so no PCB changes are required. The module will be tested with two different external antenna types, a ceramic patch and a ½ wave dipole. In each case the antenna is connected by a short length of u.fl coax cable.

Thank you for your attention to this matter.
