The parameters in this specification follow the definitions and recommendations per NGMN P-Basta, Release 9.6

| LTE band | 41 |
| :---: | :---: |
| Frequency range | 2496-2690 MHz |
| Average gain to RF connector | $11 \pm 1.0 \mathrm{dBi}$ |
| Azimuth HPBW | $65^{\circ} \pm 10^{\circ}$ |
| Elevation HPBW | $30^{\circ} \pm 5^{\circ}$ |
| Polarisation discrimination at $0^{\circ}$ | 18 dB |
| Front to back ratio (CoPol) | $\geq 23 \mathrm{~dB}$ |
| Polarisation | Dual Slant $\pm 45^{\circ}$ |
| Electrical Down-tilt | $0^{\circ}$ |
| Impedance | 50 ohms |
| First side-lobe level | $\leq-20 \mathrm{~dB}$ |
| VSWR | $\leq 1.5: 1$ |
| Isolation between RF Ports | $\geq 20 \mathrm{~dB}$ |
| Average transmission power per polarisation | 26 dBm |
| Peak transmission power per polarisation | 36 dBm |
| Recommended maximum dimensions PCB (mm) | See Outline Drawing on P2 |
| Connector type | $2 \times \mathrm{MMCX}$ Extended Connectors |
| Cable Type | RG405-Semi Flex |
| Cable Length | $317 \mathrm{~mm} \pm 3 \mathrm{~mm}$ |
| Connector to Cable Spec | See Outline Drawing on P2 |
| Labelling | 22 \& 21 |
| DC Grounding | All Antenna ports to be DC grounded |
