Address: Harava St, "Unitronics" building
Airport City 70100, P.O.199
Israel

ProST 3.7GHz Tune up procedure

Each ProST radio has been tested by automatic test station. As part of the test , the Maximum RF output power value has been masured. In case the RF output power is higher then specified in the System Description, the EasyST/ProST radio doesn't pass the test and get Fail status. EasyST/ProST boards with Fail status can not be assembled as part of final product.

Name of authorized person: Zion Levy
Position: Compliances & Testing Engineer

A handwritten signature in black ink, appearing to read "Zion Levy".

Date: December 31, 2007
