EasyST/ProST statement

Each EasyST/ProST radio has been tested by automatic test station. As part of the test , the Maximum RF output power value has been measured. In case the RF output power is higher than specified in the System Description, the EasyST/ProST radio doesn't pass the test and get Fail status.

EasyST/ProST boards with Fail status can not be assembled as part of final product.

Name of authorized person: Zion Levy
Position: Compliances & Testing Engineer

A handwritten signature in black ink, appearing to be "Zion Levy", written over a light gray horizontal line.

Date: May 11, 2006
