Subject: Unrestricted Contention Based Protocol

To whom it may concern

We hereby declare that only user/operator accessible parameters that can affect the operation of the contention based protocol are:

- Carrier Sense Backoff Frames
- Carrier Sense Threshold

These parameters can only be set within ranges of values permitted in the Netspan Management software as detailed below:

- Carrier Sense Backoff Frame : any value ≥ 2
- Carrier Sense Threshold: -96dBm to -65dBm in 1dB steps

Sincerely yours,

Zion Levi
Compliances & Integration Engineer
