Letter for the Permissive Change

Date: May 6, 2010

To Whom It May Concern:

This letter is providing the additional information for the Permissive Change application. The model: M2314 are based on the previously original certified model: H9283. The following component has been changed:

changed schematic and PCBA, add L4 and C8 LC filtering, it's easy and better
to control high harmonic.

All design including electronic, electrical and construction remain the same except the above mentioned. The above specified change is not intended for maximum power.

Sincerely,

Name: Wong, YC
Title: Sr. Mgr Electronic Engineering
