COMPLIANCE WITH FCC REGULATIONS (VALID IN U.S.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received. including interference that may cause undesired operation

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no quarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- · Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and
- · Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician

NOTE: Changes or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.

RSS - 310 (Canada) (VALID FOR CANADA ONLY - VALABLE AU CANADA SEULEMENT)

This Category II radiocommunication device complies with Industry Canada Standard RSS-310. Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Ce dispositif de radiocommunication de catégorie Il respecte la norme CNR-310 d'Industrie Canada. L'utilisation de ce dispositif est autorisée seulement aux deux conditions suivantes : (1) il ne doit pas produire de brouillage, et (2) l'utilisateur du dispositif doit être prêt à accepter tout brouillage radioélectrique recu, même si ce brouillage est susceptible de compromettre le fonctionnement du dispositif CNR-310 d'Industrie Canada (CANADA SEULEMENT)

CNR-310 d'Industrie Canada (CANADA SEULEMENT) 27.145 MHz TX RF = 54 dBuV/m @ 3m.

COMPLIANCE WITH FCC REGULATIONS (VALID IN U.S.

This device complies with Part 15 of the ECC Bules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
- This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which

can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- · Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician

I. CONTENTS / FEATURES

Plane Transmitter

II. BATTERY INSTALLATION

(Transmitter & Vehicle)

Requires 2 AA alkaline batteries for the transmitter and includes 4 AA batteries for the vehicle.

Vehicle

- 1. Unscrew the battery cover with a Phillips head screwdriver (not included).
- 2. Remove batteries included for demonstration purposes and dispose of them safely.
- 3. Install 4 new alkaline batteries with polarity (+/-) as shown inside the battery compartment.
- 4. Replace battery cover and tighten screw.

iransmitter

- 1. Unscrew the battery cover with a Phillips head screwdriver (not included).
- Transmitter requires 2 AA alkaline batteries. Install with polarity (+/-) as shown inside the battery compartment.
- 3. Replace battery cover and tighten screw.

III. OPERATION

Your vehicle is designed for easy operation. Switch vehicle ON. Push control stick forward and vehicle will move forward as if taking off. Pull control stick backward and vehicle will reverse left in a circle.

IV. QUICK TIPS

- When your vehicle starts to lose power, it may lose functionality or performance. It's time for fresh batteries. Your vehicle's running time varies depending on your driving style.
- Interference can affect your vehicle's performance. Interference can be caused by other I/R devices like a TV remote control or other remotes in the house. Try to stay away from these!
- Opinit the transmitter toward the vehicle. If your vehicle gets too far away, it won't work properly.
- On't drive your vehicle in sand or through water or snow. If your vehicle does get wet, wipe it with a towel and allow to dry completely overnight.
- Don't store your vehicle near heat or in direct sunlight. Always turn switches OFF and remove all batteries for storage.
- **6** Do not obstruct the line of sight.
- Do not exceed the specified range.
- This vehicle works better indoors than outdoors where sunlight can sometimes interfere with the I/R.
- If that doesn't work, simply turn the vehicle's power switch OFF and then ON again. This should reset your vehicle and let you resume normal operation.

V. BATTERY SAFETY INFORMATION

In exceptional circumstances batteries may leak fluids that can cause a chemical burn injury or ruin your product. To avoid battery leakage:

- Non-rechargeable batteries are not to be recharged.
 Rechargeable batteries are to be removed from the product before being charged (if designed to be removable).
- Rechargeable batteries are only to be charged under adult supervision (if designed to be removable).
- Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel-cadmium) batteries.
- Do not mix old and new batteries.
- Only batteries of the same or equivalent type as recommended are to be used.
- Batteries are to be inserted with the correct polarity.
- Exhausted batteries are to be removed from the product.
 The supply terminals are not to be short-circuited.
- The supply terminals are not to be shot
 Dispose of battery(ies) safely.
- Do not dispose of this product in a fire. The batteries inside may explode or leak.

Battery Performance Note:

For best performance use regular or high-performance alkaline batteries (where disposable batteries are called for). If your vehicle is supplied with standard (carbonzinc) batteries for initial use and/or demonstration purposes, we recommend replacing them with alkaline batteries when necessary. Battery life may vary depending on battery brand.

VI. CONSUMER INFORMATION

Note to Adults: To ensure that the child's play is both safe and fun, please review all operating instructions and safety rules with your child.

Safety Tips

- NEVER drive your vehicle on streets! They're for real cars!
- DO NOT pick up the vehicle while in motion.
- Keep fingers, hair and loose clothing away from the tires and the wheel hubs while the vehicle is switched ON.
- Adult supervision is recommended when this vehicle is being operated.
- To avoid accidental operation, remove all batteries when not in use.
