Subject: RE: Addition to 2nd OLD, OLD Application Audit (FCC ID: PIZMH9012)

Dear Timothy,

As per the requirement from FCC, please see the response below:

1. The frequency range for Base is 902.675 to 904.625MHz.
for handset is 925.375 to 927.325.
2. Please find the RF board schematic for PIZMH9012 as
file attached for your reference.
3. We have checked the set-up photo of submitted file, we
did provide it, but I send the set-up photo in this mail again.

Would these response be ok? If need more info, please let
me know. Thank you.

Have a nice day & Best Regards,

Julia/ Intertek Taiwan
