**New FCC ID application based on FCC ID: UYW-425-0002**

I hereby request a new FCC ID, PJ5-4250031, for the Raymarine AIS4000 based on the SRT Apollo 425-0002, FCC ID UYW-425-0002 granted on 29<sup>th</sup> September 2016.

The Raymarine AIS4000 425-0031 differs from the Apollo 425-0002 only in branding, it's features, functionality and performance are the same. The branding extends to the front panel label and the covers on the product manual, nothing else is different. Therefore, all the test results and reports provided with the original application for the Apollo 425-0002 apply equally to the Raymarine AIS4000.

This letter is permission from SRT Marine Systems plc for an application to be made for a new FCC ID for the Raymarine AIS4000 425-0031 based on the grant for the Apollo 425-0002, FCC ID UYW-425-0002, and using the reports provided as part of that original application.

Yours sincerely,

A handwritten signature in dark ink, appearing to read 'Abdul Mohammed', with a horizontal line drawn underneath.

**Abdul Mohammed**
