**Overall Assessment Letter for the Raymarine AIS500 Class B AIS Transponder**

**FCC id: PJ5-AIS500**

I have assessed the above referenced submission for the AIS500 and found it to be compliant. The product is a Marine Class B/CS Automatic Identification System.

As a result of the assessment review the application was corrected to state the required FCC ID. The authorisation letter was also requested to be updated to provide the required authorisation from the FCC Grantee person to the named individuals as appropriate.

The US Coast Guard letter was also subsequently received and report for compliance against IEC 62287 and IEC 60945 were also received.

I underwent the FCC RF exposure training with the FCC in October 2008.

Yours sincerely
