1.4 PRODUCT INFORMATION

1.4.1 Technical Description

The Equipment Under Test (EUT) was a Raymarine UK Ltd AIS650, class B AIS as shown in the photograph below. A full technical description can be found in the manufacturer's documentation.

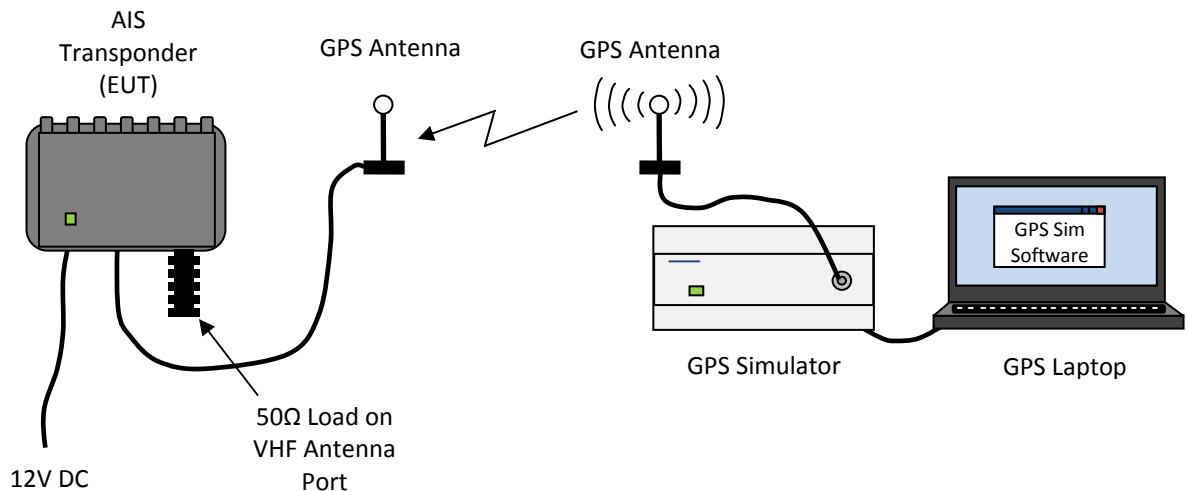

Equipment Under Test

1.4.2 Test Configuration

The EUT was set up with the VHF port connected to a load.

During Tx Mode (Mode 1) the EUT was provided with a simulated GPS position which it could transmit with its NMEA identifier.

Doing Rx Mode (Mode 2) the simulated GPS position data was removed.

Configuration 1: As supplied

The EUT was configured in accordance with IEC 60945.

1.4.3 EUT Cable / Port Identification

Port	Max Cable Length specified	Usage	Type	Screened	Notes
DC Power / Signal	N/A	DC Power and NMEA0183	Multicore	Yes	Connected during testing
Signal	N/A	Diagnostic	Multicore	Yes	Not connected during testing
Antenna	N/A	VHF Antenna	Coax	N/A	Connected during testing
Antenna	N/A	GPS Antenna	Coax	N/A	Connected during testing

1.4.4 Modes of Operation

Modes of operation of each EUT during testing were as follows:

Mode 1 – Tx (Autonomous)

Mode 2 – Rx / Searching for GPS lock.

Information on the specific test modes utilised are detailed in the test procedure for each individual test.

1.5 TEST CONDITIONS

For all tests the EUT was set up in accordance with the relevant test standard and to represent typical operating conditions. Tests were applied with the EUT situated in a shielded enclosure, test laboratories or an open test area as appropriate.

The EUT was powered from a 12V supply.

Test Results

EN 60945, Clause 5.3 states:

The measured test results shall be compared with the corresponding acceptable performance limits and the EUT shall pass the test only if the measured performance margin is favourable and greater than the measurement uncertainty. The test report shall show, for each test measurement, the test result, its associated measurement uncertainty, the acceptable performance limits, and the acceptable performance margin, as applicable.

The tests detailed in this report met the above test requirements.

1.6 DEVIATIONS FROM THE STANDARD

Limited testing, please refer to Section 1.2 for a list of applied tests

1.7 MODIFICATION RECORD

No modifications were made to the EUT during testing.
