Label affixed to outer packaging. High-Definition version shown. SHD version bears part number E52081 and description "4KW SHD DIGITAL RADAR"

Ratings label drawing. Note that this drawing is for a Raymarine radome radar, but will be identical for the 4kW Digital HD and SHD Open Array Radars with the exception of the voltage and current ratings shown, which will be changed to reflect those of the Digital Open Array scanner.

Warning label used on the core casting near the magnetron (3029-193-A)

VCM100 labels. Left-hand label identifies product by part number and serial number. 5649-002 will be replaced by E52091 on production units.
