15th January 2008

Gentlemen,

***Subject: Application for Grant of FCC Equipment Authorisation***

***Raymarine G-Series Command Center (Wireless Keyboard) & SeataalkNG Base Station.***

Please find enclosed a CD ROM that contains the Application Forms, Exhibits and other required documents from Raymarine for our Seataalk NG Base Station, FCC Identifier PJ5-STNGB, and our Command Center which, with a Wireless Upgrade Kit, has FCC Identifier PJ5-CCTR.

Most exhibits within this application are identical to those provided to you in connection with the application for Industry Canada certification which Ms Vina Kerai is currently processing on our behalf.

The products described form a system which enables control of Raymarine's G-series products via a wireless link interfacing to Raymarine's SeataalkNG data bus. The keyboard is available as a wired version which may be directly connected to the SeataalkNG data bus without requiring the use of the Base Station. The wireless transceiver in the wired version is disabled and requires the addition of the Wireless Upgrade Kit in order to function wirelessly.

Part Numbers for the various components of the system are given below:

Raymarine Command Center	Part Number E02044	} PJ5-CCTR
Raymarine Wireless Upgrade Kit	Part Number E02046	
Raymarine SeataalkNG Base Station	Part Number E02045	PJ5-STNGB

The Wireless Upgrade Kit has no active components, and consists primarily of a rechargeable battery pack which powers the rf components, a connector cover and a charging lead, together with instructions for fitting.

Separate Technical Construction Files have been prepared for the two parts of the system, each containing the appropriate exhibits.

We have experienced some delays in submitting this application owing to staff shortages, and would greatly appreciate your earliest attention to processing the application to a satisfactory conclusion. I believe that the information provided should meet your requirements, but if you need any further information or clarification, please do not hesitate to contact me at any time.

Sincerely,

Peter Bowen,  
Compliance Manager,
