Dear Sir

Subject: Applications for FCC Certificates of Approval for Raymarine a75, a77 and a78 multifunction displays

Please find enclosed the FCC application for the following Raymarine Displays. These are intended for use on non-IMO leisure craft and small workboats.

A75 7 inch Chartplotter display, Part number E70164

A77 7 inch Chartplotter display with fishfinder, Part number E70165

A78 7 inch Chartplotter display with Downvision fishfinder, Part number E70202

These displays extend the range of Raymarine a series displays, using common CPU and sonar boards to the a65, a67 and a68 with a larger 7" LCD rather than the 6" LCD used in the a6 range. There are minor changes to the CPU boards depending on display size or version of sonar board.

All three displays have identical LCDs, touchscreen, NMEA2000 and Seataalk^{hs} functionality, the only exceptions is the sonar PCBs in the a77 and a78.

If you have any queries regarding the application, please contact myself or Paul Pitt on the following:

Andy Little andy.little@raymarine.com 01329 246897
Paul Pitt paul.pitt@raymarine.com 01329 246900

Yours faithfully,

Andrew Little BEng (Hons) CEng MIET MIEEE,
