declares that the UHF Long Range Reader Models ID ISC.LRU3000-FCC and ID ISC.LRU3500-FCC are equal in all relevant parts. Both readers use the same schematic. The LRU3000-FCC is just a version of the LRU3500-FCC with limited features and minor changes in the BOM. BOM files of both reader versions are provided. The BOM files show that in both versions of the reader the synthesizer is identical.
