

---Reply from Customer on 05/03/2021---

Dear FCC Lab Staff:

Inseego Corp has filed a Class II Permissive Change application for 5G NR FR2 Outdoor CPE equipment, previously authorized under this PAG. According to KDB 388624 D01 Pre-Approval Procedure, the TCB is required re-open this PAG prior to approval. The item of concern is:

- (UMFLEX) Devices certified under Part 30 Upper Microwave Flexible Use Service.

This change is implemented via software only.

FCC ID: PKRISGFW2010.

We have completed the review and have no concern about the PAG aspects of this filing. We believe the application is acceptable and that all applicable FCC KDB guidance has been followed.

We will upload the files to 731 Form E filing system and provide you with the TC numbers in our next correspondence.

Timco Engineering, Inc.
