Re: MPR attestation for PKRNVWE362-H

Novatel Wireless declares the following:

- 1) The LTE Maximum Power Reduction (MPR) is a mandatory feature that is builtin by the design. The feature is permanent and cannot be changed by the end user or the network operators.
- 2) The LTE MPR meets the applicable 3GPP TS 36.101 technical specification requirements. Maximum output power is permanently limited for the configurations specified in Table 6.2.3-1 of 3GPP TS 36.101
- 3) The device was tested for SAR with both MPR and A-MPR disabled
