To Whom It May Concern:

I was instructed by the FCC admin to upload the following request directly into the application as a cover letter exhibit:

Please change classification for an uploaded document from cover letter to operational description and mark as confidential.

I uploaded an application for FCC ID: PKRNVWE760D, EA912747 and misclassified one of the documents I uploaded as a cover letter. I also did not request confidentiality for that document. There should be two documents that have some sort of reference as "PID\_VID" Documents. The one marked as a cover letter is incorrect. It should have been listed as operational description and should be marked as confidential. Can you please make this change for me?

**To clarify, both PID VID documents that were uploaded should be listed as operational descriptions and both should be confidential.**

Your assistance in correcting my error is greatly appreciated.

Best regards,

Sandy Valentine
