

Inquiry to FCC (Tracking Number 791722) TCB

Inquiry:

Our client is applying for certification of a Node B base station equipment to FCC Part 27 and wishes to keep the Installation Guide (User Guide) and Internal Photograph exhibits confidential. The equipment is not supplied to the general public and is installed in restricted access locations by professional installers. The Clients' request is enclosed.

Response:

Your request for confidentiality dated March 9, 2009, specifically the last paragraph of the request, should attest to the following FCC Confidentiality Policies as stated:

Internal photos can also be held confidential if a non-consumer device is inaccessible to the general public, such as a device mounted on the top of a large tower (or in a fenced enclosure) that is only serviceable by the licensee or his designated technicians.

A user's manual may be held confidential when the manual is very technical and is not provided to the consumer because the consumer cannot service the device.

Inquiry:

---Reply from Customer on 03/23/2009---

Our client's updated confidentiality request with the required attestation has been uploaded herein. Please confirm if this is acceptable for the PBA.

Response:

You can finalize the Form 731.

Reply from Customer on 03/25/2009---

The form 731 application has been submitted and is ready for FCC review.

FCC ID: PKTNODEBYP
TCxxxxxx

Our client's updated confidentiality request with the required attestation has been uploaded in the 731 application as "PBA Confidentiality Request" Cover Letter exhibit.

Response:

You can proceed with issuing the grant.
