RE: 2.5GHz Outdoor UE FCC ID: PKTODUAFD single chip rate operation at 7.68Mcps

To Whom It May Concern,

This letter is to confirm that the exhibits provided as part of the FCC certification application for FCC ID: PKTODUAFD cover operation of the equipment using 2 alternate chip rates of 3.84Mcps or 7.68Mcps.

The test sample provided for FCC certification was evaluated using the higher chip rate 7.68Mcps as this chip rate will only be used for this equipment when operational in North America.

Yours Faithfully,

Peter Warburg
Technical Associate
IPWireless UK Ltd.
