RE: PCI Express Mini Module FCC ID: PKTPEMAEX single chip rate operation at 3.84Mcps

To Whom It May Concern,

This letter is to confirm that the exhibits provided as part of the FCC certification application for FCC ID: PKTPEMAEX cover operation of the equipment using 2 alternate chip rates of 3.84Mcps or 7.68Mcps.

The test sample provided for FCC certification was evaluated using the lower chip rate 3.84Mcps as this chip rate will only be used for this equipment when operational in North America.

Yours Faithfully,

A handwritten signature in black ink, appearing to read "P. Warburg", written over a horizontal line.
