RE: The Lynksys Group

FCC ID: PKW-WAP51AB

The purpose of this Application is to make minor corrections to the Grants originally issued on September 15, 2002. Minor refinements have occurred in areas such as data handling and throughput, and the accompanying circuit and software modifications which make it prudent to document this product as currently marketed. Changes which appear on the Grant for RF power output are due to errors discovered in the original equipment test software setup, and not on any functional changes within the equipment.

A handwritten signature in black ink, appearing to read "William H. Graff". The signature is fluid and cursive, with a prominent initial "W" and a long, sweeping tail.

William H. Graff  
President and Examining Engineer
