

Added harmonic filter in blue box below for 2.3/2.5/2.6 TTA modules:

L10= 2.7nH, 08-00220-00R  
C29 = 1.2pF, 02-00207-00R  
C30=1pF, 02-00206-00R  
L11 = 3.3nH, 08-00163-00R

Also SUBBED in a Peak Devices part: 29-00046-00R for 2.3 TTA module  
29-00045-00R for 2.5 and 2.6 TTA module

Filter changed on 2.3 TTA module to frequency range 2300 to 2400 MHz....filter widened 5 MHz....old filter was 2305 to 2400 MHz...08-00209-01R is the new filter.

Filter changed on 2.5 TTA module to frequency range 2496 to 2620 MHz...filter widened 20 MHz on top end and 4 MHz on lower end...old filter was 2500 to 2600 MHz...08-02558-00R is the new filter.

Filter changed on 2.6 TTA module to frequency range 2595 to 2690 MHz...filter widened 4 MHz on top end...old filter was 2596 to 2686 MHz...08-02643-00R is the new filter.
