

Period of Keyed Modulated RF - Carrier

Model : AT3/WS410

Carrier Frequency: 433.92MHz

Bit Rate: 512 bits / second

Encoding: Pulse width modulation

2 pulses of 0.976 ms low, 0.976 ms high for logic 1

1 pulse of 1.952 ms low, 1.952 ms high for logic 0

Word Format: 36 bits / word (70.3ms)

Operating Period: The unit sends a 210 millisecond word at a maximum rate of 1 word every 60 seconds
