Re: Request for Confidentiality

Pursuant to the Commission's rules, Encom Wireless Data Solutions, Inc. would like to request confidential treatment of the **Schematics and Bill of Materials** for the COMMPAK900.

These documents contain trade secrets and proprietary information that are not released to the general public. Extensive research and development efforts have provided us with spread spectrum radio technology that significantly outperforms much of our competition. The public disclosure of these materials would be harmful to Encom Wireless Data Solutions, Inc. and would give our competitors an unfair advantage.

We appreciate your assistance on this matter.

Regards,

A handwritten signature in black ink, appearing to read "Ken Szgatti". The signature is fluid and cursive, with a large loop at the end.

Ken Szgatti
President
