Re: Request for Confidentiality.

Pursuant to the Commission's Rules Microhard Systems Inc. requests confidential treatment of the **Schematics and Bill of Materials** for the PLQCOMMMPAK900. This product is Microhard Systems Inc.'s MHX-920E (FCC ID: NS901P6), which Microhard Systems Inc. owns and manufactures. Microhard Systems Inc. requests that you hold his information confidential from public and from the applicant Encom Wireless Data Solutions Inc.

These documents contain trade secrets and proprietary information, which is not released to the public. Extensive research and development efforts have provided us with spread spectrum radio technology that significantly outperforms much of our competition. The public disclosure of these materials would be harmful to Microhard Systems Inc. and would give our competitors unfair benefits.

Thank you in advance.

Hany H. Shenouda
President
