Re: Request for Third Party Confidentiality.

This letter supercedes all previous requests for confidentiality.

Pursuant to the Commission's Rules Microhard Systems Inc. requests confidential treatment of the Microhard Systems' **Schematics and Bill of Materials**. Microhard Systems Inc. requests confidentiality for the following exhibits and any other exhibits which are marked confidential.

Digital_SCH.pdf
Radio_SCH.pdf
BOM.pdf

These exhibits are the confidential and proprietary property of Microhard Systems Inc. The applicant (Encom Wireless Data Solutions Inc.) has filed for a grant under FCC ID: PLQCOMMPAK900, however, the applicant does not own nor have access to the listed exhibits herein or any other confidential exhibits. This product is Microhard Systems Inc.'s MHX-920E (FCC ID: NS901P6), which Microhard Systems Inc. owns and manufactures and sells to the applicant. **Microhard Systems Inc. requests that FCC holds his information confidential from public and from the applicant Encom Wireless Data Solutions Inc.**

These documents contain trade secrets and proprietary information, which is not released to the public or the applicant. Extensive research and development efforts have provided us with spread spectrum radio technology that significantly outperforms much of our competition. The public disclosure of these materials would be harmful to Microhard Systems Inc. and would give our competitors unfair benefits.

Thank you in advance.

Hany H. Shenouda
President
