## **Technical specifications**

## All the transmitters

Center frequency:  $433.92 \text{ MHz} \pm 20 \text{ kHz}$ 

Oscillator: 30MHz Modulation: GFSK Rate = 40kbit/sec

Code: A train of pulses lasting 17.6ms followed by a pause of 100ms.

Radiated power (ERP):  $< -80.83 dB\mu V/m$ 

DC=(8.8\*2)/100=0.176 20Log(DC)= -15.09 dB

Correction average power: -15.09 dB Working temperature: from -20°C to +55°C
