

# AXIS W120 BODY WORN CAMERA

**FCC ID: PNB-RC76B**  
**IC ID: 3919A-RC76B**

## **Label drawing and locations document**

Prepared by: Lars Andersson, AXIS Communications AB

The device labelling is located on the back side of AXIS W120.

It consists of 1) a physical label containing the unique device ID (serial number) and manufacturer part number and 2) a laser engraving into the plastic chassis containing regulatory and other common information.

The photo below shows the back side of the device, which contains the labelling. The area marked by a red rectangle contains regulatory information.

Illustration to show the regulatory marking in detail, incl. FCC ID, IC ID and HVIN:
