

AXIS D2110-VE

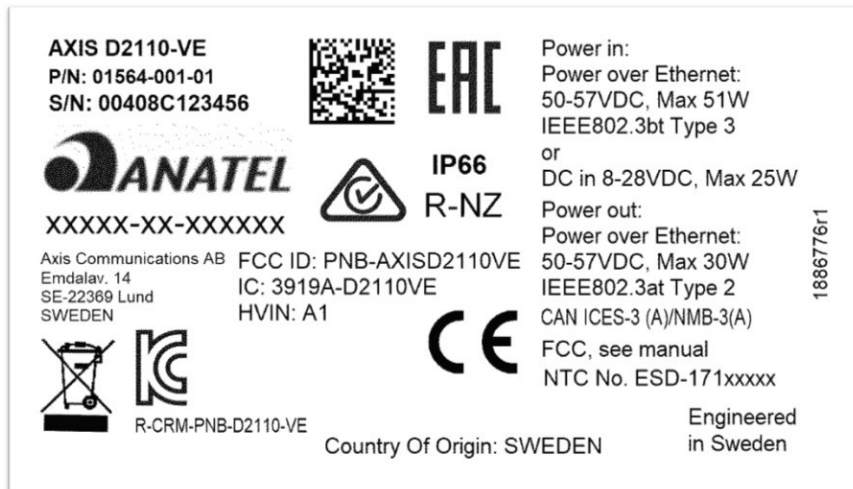

Label document for TCF

Label locations:

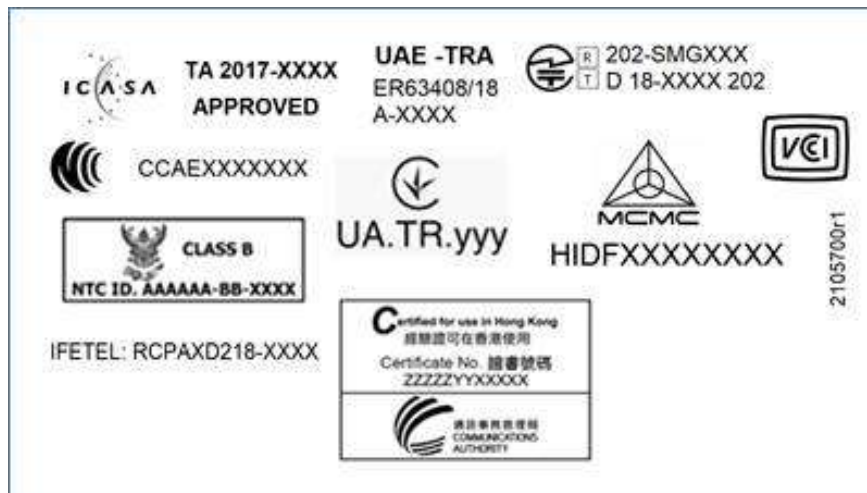

The labels are located on the rear side of the device. The photo below shows an example of label placement for D2110-VE. There are four recesses in the metal backplate used for placing labels, marked with red border in picture.

Labels used on D2110-VE:

Label 1
55 x 31 mm

Label 2
55 x 31 mm

Label 3

Label 4
30x15mm

Labels above are examples of a typical layout. Product name and all certification numbers will be updated to reflect correct naming when available.

CE mark height is at least 5 mm. Further symbols and codes for additional global regulatory type approvals, will be added to the labels.
