Subject: RE: Status of Beamer and LPA - URGENT

Hello Chris

In response to your Email please be advised that the LPA , FCCID - PNQC-EP2-NW is a Single Carrier CDMA (IS-95) LPA and should be tested as such (Please note the specifications for this amplifier at Appendix 2 of the material sent to you). Since it is NOT a two -carrier amplifier, the IM test might not be relevant to it's approval.

Thanks

Gideon Argaman
