Subject: GALTRONICS, FCC ID:PO3WNGWAP104, AN01T1689

Notice_content

Question #1: Please provide Processing Gain Data.

Question #2: The antenna gain listed in the technical specification and user manual is 1dBi gain. However, in the antenna specification file, the antenna gain is listed as 8dBi gain. Please explain.

Question #3: Please provide MPE calculation.

Question #4: What is the theoretical process gain? Chip/bit rate? Spread rate/data rate?

Best Regards

Mike Kuo / TCB Certifier

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 60 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
