

Mike Kuo

---

Hi Mike,

Here is the reply for the questions for Horng wireless mouse submission.  
For Q1, RX photo is removed and please refer to attached EUT external and internal photos for details.  
For Q2, the test data of fundamental frequency has been addressed as attached report.

Besides, Horng asked to add one more model: HTM-80WRT on the report that we have then added it in the attached report and photos already, so please file them as the final one.

Thank you and Best Regards,

Lucy

Notice\_content

-----  
Question #1: The External and internal photos contains receiver photos.  
This application is only applicable to the wireless transmitter and does not include the receiver. Please remove receiver portion of photos from external and internal photos file.

Question #2: In the test report, there is no test data for fundamental frequency investigation. Please provide test data to address 15.227 requirement.

Best Regards

Mike Kuo  
The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested
