Federal Communications Commission  
445 12th Street SW  
Washington, DC 20554

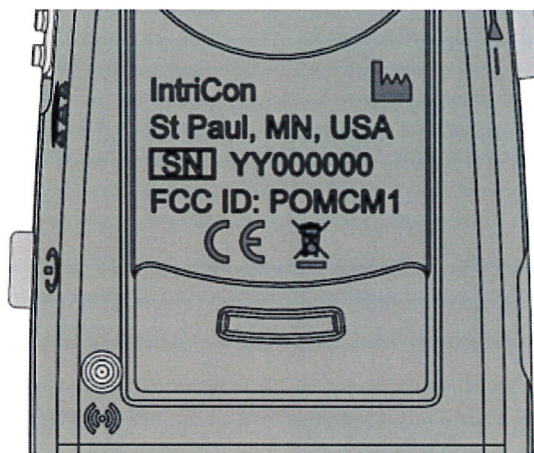

**Subject: FCC ID labeling on POMCM1 Companion Microphone**

To whom it may concern,

Please find below an illustration of the FCC ID Label and Location on the back side of the Companion Microphone. The labeling is described on page 13 of the User Manual Document # 22981, from which this image is extracted.

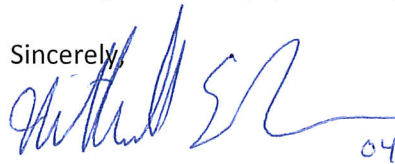

#### Labeling

The serial number (S/N) is located on the hearing device as an 8-digit number. The first two digits of the S/N represent the year of manufacture (i.e. "15" refers to 2015). The last six digits is a unique identifier. All eight numbers create the serial number of the device.

Should you have any questions, please feel free to contact the undersigned.

Sincerely,

04 Dec 2017

Mitch Johnson, RAC  
Director, Regulatory Affairs
