Subject: RE: AP-201a user's manual

Sam - We met internally to discuss this and our current plan is to change the SW so that ALL countries are limited to Channels 1-11. So no matter which country you choose, it will never go above CH11.

Thanks for your assistance!

Best Regards
Wendy Liao

Question #1: P24 has country selection and this is not allowed according to FCC policy. Please remove this function from US model.
